Solace

Welcome to the Solace family.

The entire world has been shook up with an invisible enemy.

This is an extremely challenging time and there is no other choice for us

But to learn how to live with it. This is where we come to your rescue

With our Solace. We serve the role of providing you assistance and help you cope

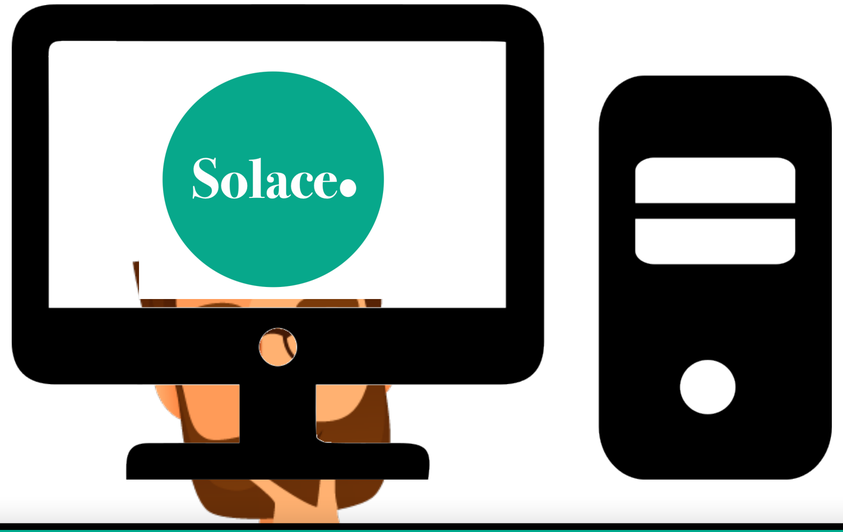
This new world with covid. This is our solace to you in this tough times of Pandemic

We're not just all talk, so let's now see

How we deliver,

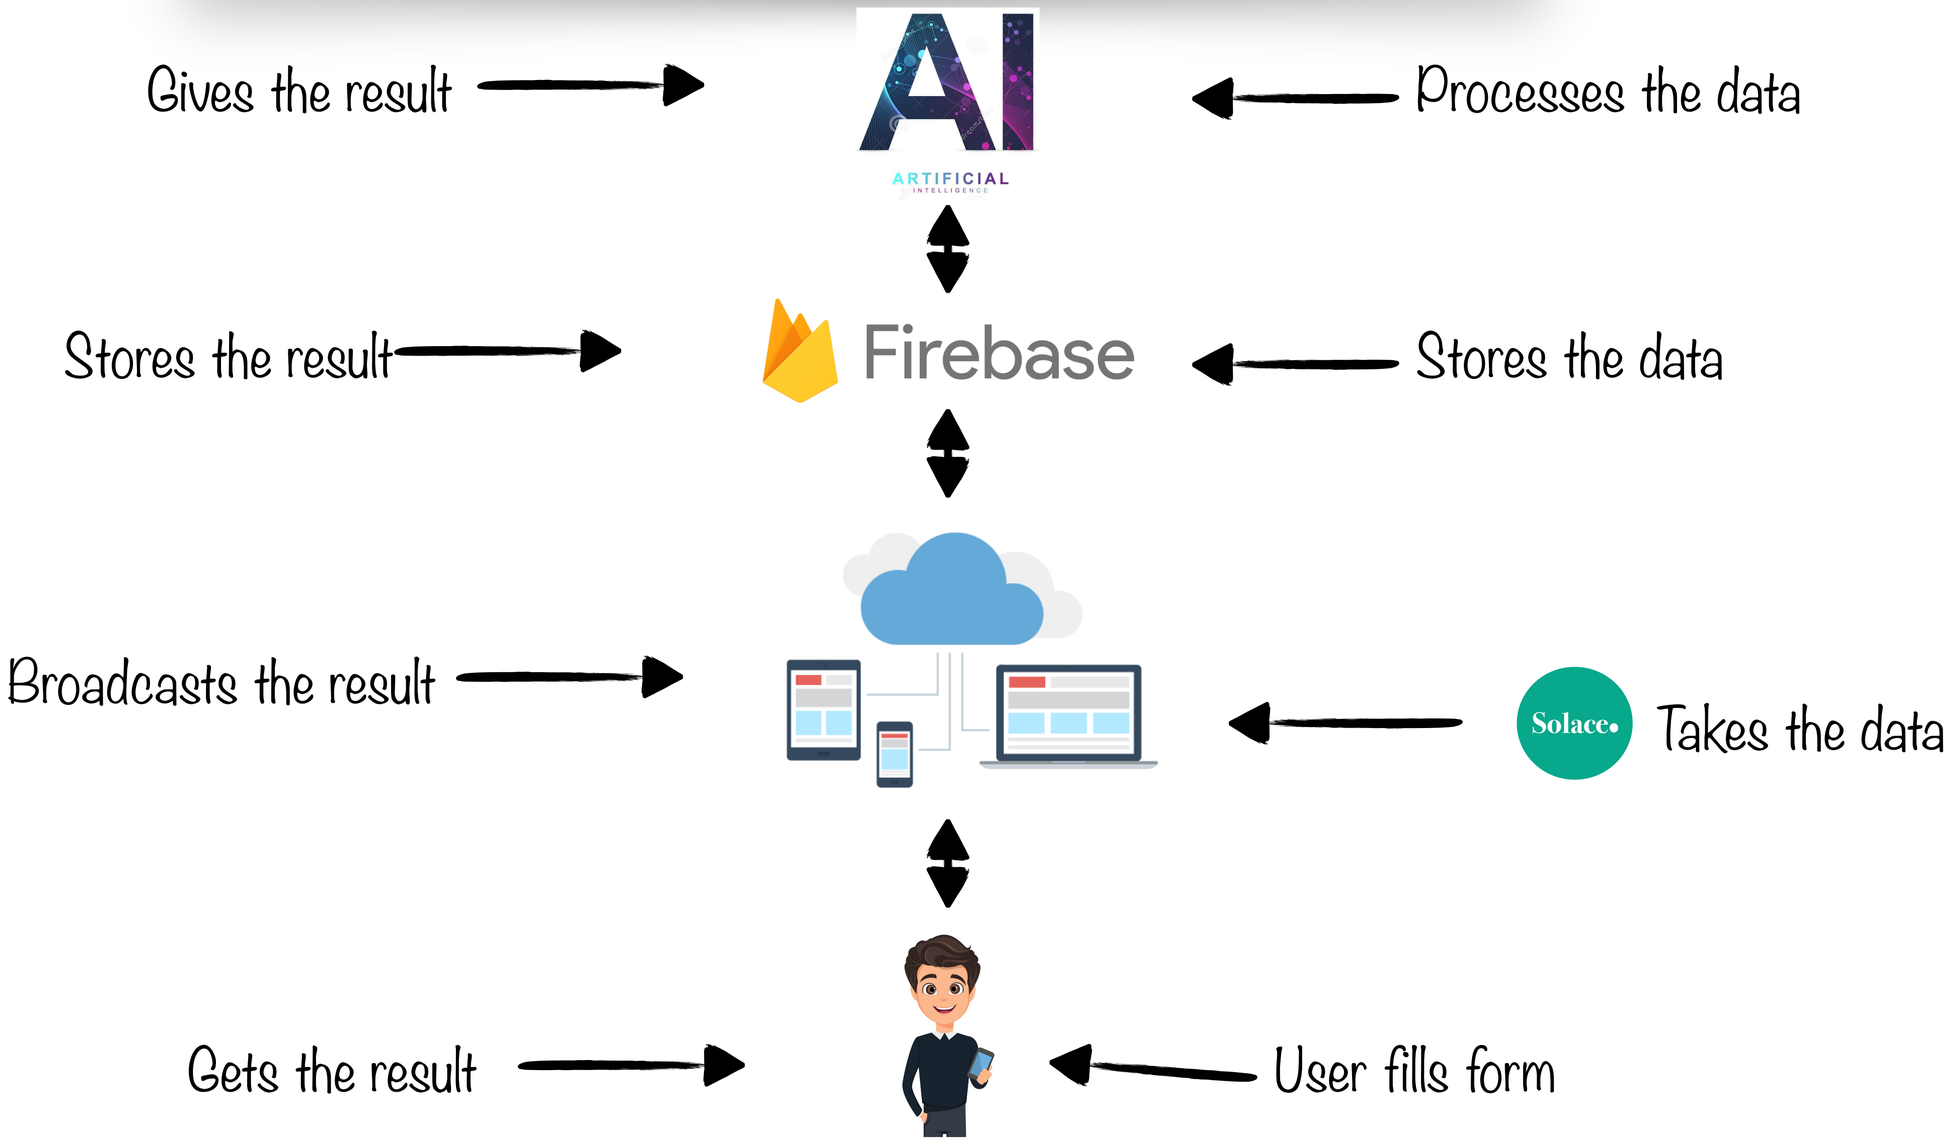
What we promise to deliver.

How we serve our Users



When a user logs into our website he get's provided with live covid case data of the country. He then proceeds to fill a form. Once the user fills the form, we will feed his data to our AI model . The AI model then shows it's magic and gives us the result which would be the state of the User's susceptibility of covid. But our job doesn't end here, along with the result, we show the user the hospitals nearest to him along with the live available bed count, nearest clinics to buy medicins, doctors and even sell high quality protective kits from trusted vendors. We go through the data so that you don't have to go through the hospitals.

Too boring to read? Don't worry, we got you covered



Stakeholder

But wait, that’s not our only stakeholder

Our Stakeholders

Hospitals

Doctors

Online Vendors

Offline vendors

Looks cool doesn’t it?

Let’s now see how cool it really looks.

Let's go through our Solace, feature by feature.
